2017 Morgantown Paving Project Plans

MORGANTOWN – Now that WVU students went across the graduation stage and out of town for the summer, the Morgantown Engineering Department will begin making progress on our city streets.

The 2017 Paving Project is larger than last year's project with a total of 60 streets, 120 ADA ramps, and a price tag of around \$2 Million. The project, as the case last year, will be completely funded by the Safe Streets and Safe Communities User Fee.

There are several changes for this year's paving project, starting with it being split into two separate contracts. The North streets of the city will be completed by Anderson Excavating and the South streets will be done by Parrotta Paving.

Anderson Excavating has already started the completion of the north side portion with the installation of ADA ramps on Fairfield Street, Mulberry Street, and Koontz Avenue. Anderson will finish ADA ramps on Rawley Avenue, Hawthorne Avenue, and Riverview Drive this week. Crews will begin milling on Monday, May 15 with paving set to begin on Monday, May 22. Anderson's deadline for its paving list is July 28, 2017. Staff Engineer Luis Caceres will be the inspector onsite for Anderson.

Assistant City Engineer Alex Stockdale will be the inspector to oversee Parrotta Paving on the south side of the city. Parrotta will tentatively begin work on May 22, 2017. The deadline for the City's South streets is August 4, 2017 for student sensitive areas and August 25, 2017 for completion. Student sensitive areas can be found on the 2017 Paving List with an asterisk next to the street name.

An interactive Google Map for the paving project can be found by searching [Morgantown Paving Project 2017](#).
